SCALP TREATMENT

The scalp treatment process involves twice hair wash with products chosen based on scalp concerns. Following the hair wash, a mask (either 911 or 007, depending on the hair type) is applied and there is a 15-minute waiting period. After the waiting period, the mask is rinsed off completely, followed by a blow dry. Then, a high-frequency machine is used to treat the scalp, delivering therapeutic benefits to promote overall scalp health and the treatment concludes with the application of an ampule to the scalp (Ampule of Dandruff or Hair Fall depending upon the scalp concern).

02 Series - For Dandruff treatment.

04 Series - For Hair fall treatment.

We recommend these treatments twice a month, at least for 3 months for best results.

Duration: Approx. 30 Minutes

Benefits: Effective remedy for Dandruff & Hair Fall

HAIR STRAIGHTENING OR REBONDING

The Hair Straightening process works on the cuticle layer of the hair & the treatment involves hair wash using a purifying shampoo, followed by a blast dry. Then application of straightening cream is done nad a waiting of 30-40 minutes is required, visually checking for bond breaking. Then the product is rinsed off completely. Then application of a hair mask is done followed by a hair wash, proceeding with a straight blow dry, followed by ironing. Then application of neutralizer is done with a waiting period of 15 minutes. Then the neutralizer is rinesd, with an application of hair mask. Then the hair is washed followed by another straight blow dry.

Next three days following the treatment, it is recommended to refrain the hair to come in water contact, avoid oiling, avoid use of heat styling tools, shield hair from sun exposure and pollution, avoid using helmets, hair ties, clips and tucking hair behind the ear. Additionally, use a wide-toothed comb for hair combing.

For long-lasting results, we recommend the use of sulphate-free Shampoo and Conditioner regularly.

Duration: Approx. 240 - 300 Minutes **Benefits**: Straight & Manageable hair

PERMING

Perming offers curls or weaves as per your choice. It starts off with a hair wash and proceeds to roller winding. The size of the roller & the technique of the roller winding depends on the level of curling the client requires. Then a perming solution will be applied to your hair. The solution will be left to work on hair for about 20 minutes.

Roller winding is followed by a hair wash (without removing the rollers) and a neutraliser is applied to the hair. In the end, rollers are removed after washing off the neutraliser. Then hair is dried with hair dryer diffuser attachment.

Use a wide-toothed comb for hair combing.

We recommend the use of shampoos and conditioners specifically designed for curly hair for home care.

Duration: Approx. 240-300 Minutes

HAIR PROTEIN TREATMENT

The specialty of these products lies in their cruelty-free, paraben-free, 0% formaldehyde composition, enriched with high levels of amino acids and featuring an exclusive Ozone protein with coconut oil treatment. Crafted with the pure essence of nature's elements, they penetrate the cortex layer of the hair under the influence of heat, revitalizing your hair from the inside out. The Protein treatment begins with a thorough analysis of the hair and a review of its history, followed by the selection of products tailored to the specific needs. The process involves a pre-hair wash, followed by drying, serum application, product application and a waiting time of approximately 45-90 minutes, depending on the hair type and history. Subsequently, 20% of the hair is rinsed, followed by a blast dry, blow dry and section-by-section ironing. A hair wash is performed after 30 minutes and the process concludes with a final blow dry. For long-lasting results, we recommend the use of the same shampoo and conditioner for home care.

Duration: Approx. 240-300 Minutes

Benefits: 80%-90% Straight Hair, Shiny, Frizz Free & Healthy Hair

COLOUR APPLICATION WITH CLIENT'S PRODUCTS

We offer a service for clients who prefer to use their own hair colour products; however, please note that this service is limited to non-professional colours.

If clients wish to wash hair before or after colouring, then both hair washes will be charged extra.

Duration: Approx. 20 Minutes

100

Colour Application

(Only Non-Professional Product)

500

300

Additionally, if the hair is oily, a pre-wash is available at an additional cost. We recommend the use of shampoos and conditioners specifically designed for coloured hair for home care.

NAILS

A stunning nail art process begins by cleaning and shaping the nails to your desired length and style followed by a base coat to ensure a smooth canvas for your nail art. Then the application of nail paint & designs as per requirement followed by a clear topcoat application to seal and protect the artwork. The nailart will be completed by moisturizing the cuticles.

Varies from 15 to 90 Minutes Depending upon the type of service.
